PREFACE

CINL is the original CUMULATIVE INDEX TO NURSING LITERATURE. It offers an easy-to-find and easy-to-read authoritative subject-author reference to a broad selection of subject matter of importance to progressive nurses and related health scientists.

CINL is a guide to book reviews, pamphlets, illustrated material, films, filmstrips and recordings.

CINL is the only index to nursing literature for the years 1960 through 1965.

CINL journal coverage continues to grow as the editors find it possible to move forward toward the eventual coverage of all major nursing periodicals in the English language.

CINL indexers cover selectively for the nurse other ancillary serials including major medical journals. Approximately twenty-five per cent of the articles indexed are from non-nursing journals.

CINL, since early 1967 and the inception of the National League for Nursing's Standing Publications Service, indexes all serials published by the League.

CINL, since 1968, indexes the American Nurses' Association Subscription Service, excluding reprints from journals regularly indexed by CINL.

CINL, since 1969, includes "see" references for joint authors.

New titles indexed in the 1969 Cumulation include:

Community Mental Health Journal
Emergency Medicine
Family Health
Health
ICN Calling
Imprint
Journal of the West Australian Nurses
Lamp
Midwives Chronicle
Modern Nursing Home
NAT News
Nation's Hospitals and Nursing Homes
Occupational Health (N.Z.)
UNA Nursing Journal

HOW TO USE THE INDEX

The CUMULATIVE INDEX TO NURSING LITERATURE is a subject-author (or name) index. Beginning with 1967, Volume 12, subjects and authors (or names) are filed separately. Subjects and cross references appear first. The author (or name) section, i.e., authors and the names of biographees, follows.

Frequently subject headings are divided, as

NURSING EDUCATION--GRADUATE

Ample use of "See" and "See also" references guide the user, as

Play See: RECREATION; RECREATIONAL THERAPY

PHYSICAL THERAPY See also: EXERCISE; HYDROTHERAPY: MASSAGE

Since "See" and "See also" references are not included in the bimonthly supplements, it is well always to use the Index as a whole, that is, to refer to the multiyear cumulated volumes. "Nursing Subject Headings," the official list of subject headings used by CINL indexers, is also a valuable aid to the user of the Index.

Entries are not limited to a minimal indication of the general context of the article. Entries are made under all headings where material may be pertinent and which is not covered by appropriate cross references, and sometimes in addition to such cross references.

In the subject entries the name of the first two authors appear in parenthesis after the title.

Examples:

ADOLESCENCE

Helping adolescents explore emotional issues (Daniels, Krim) AJN 69:1482+, July 69

Sex education for handicapped adolescents (Bloom) J Sch Hlth 39:363+, June 69

In author entries the author's last name appears first and is followed by his initials, the title of the article, the abbreviated journal title, the volume, page, month, and year.

Example:

BLOOM JL: Sex education for handicapped adolescents. J Sch Hlth 39: 363+, June 69

Full titles for the abbreviated titles used in the entries are given in the List of Journals Indexed, in the front of the index. An added list of abbreviations of journal titles follows the List of Journals indexed regularly in CINL. These are for ancillary journals from which articles have been selected for inclusion in the supplement or the cumulation at hand.

Beginning in January 1968 under each subject heading the entries are arranged by journal title.

Beginning in January 1969 "see" references are included for joint authors.

LIST OF JOURNALS AND SERIALS INDEXED

ACOG Nurses Bull--ACOG Nurses Bulletin. The American College of Obstetricians and Gynecologists, 79 West Monroe Street, Chicago, Illinois 60603
